

PROJECT PART 2

- **Name:** Rishabh Berlia
- **Title:** Rated - Online Movie Rating System
- **Project Requirements:**

UR- 04

Description: The user/critic can delete a review that they have given for a movie. The delete option is only available for the reviews written by the corresponding user/critic.

UR- 09

Description: The Admin/Moderator can view all the flagged reviews and read them. They can then decide on whether to delete the review or not, from the system.

➤ UI Mockups

- **Home Page for all Users:**

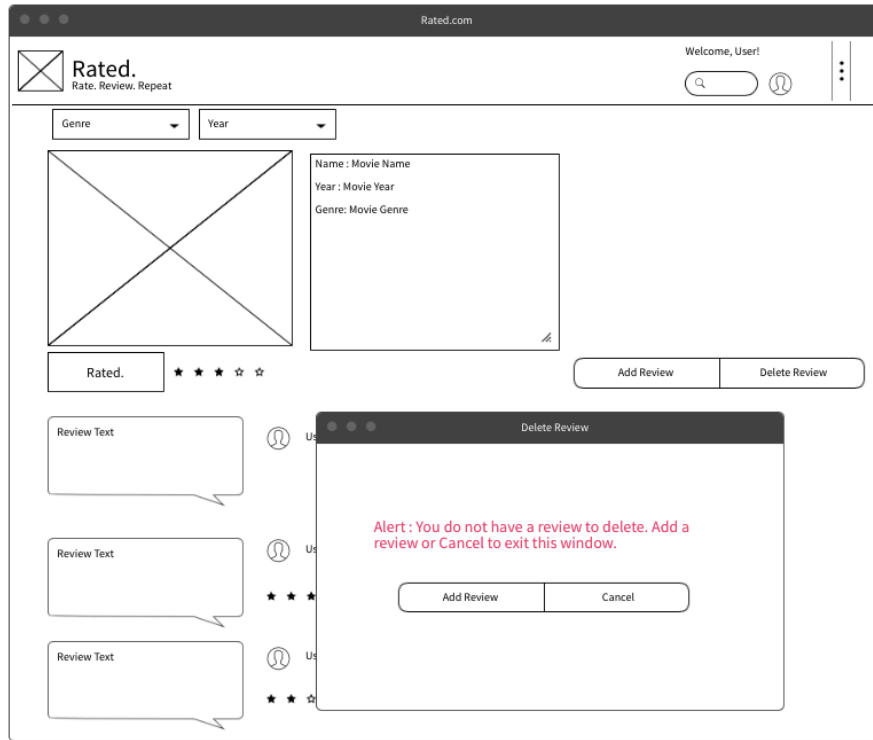

The mockup shows a web browser window with the URL "Rated.com". The header includes the Rated. logo with the tagline "Rate. Review. Repeat." and "Login" and "Signup" buttons. The main content area features a "Registered Users Login:" section with input fields for "Username / Email ID" and "Password", a "Forgot" link, a "Remember me" checkbox, and "LOGIN" and "SIGN UP" buttons. Below this are "Login with Facebook" and "Login with Gmail" buttons.

- **Sign Up page for all Users**

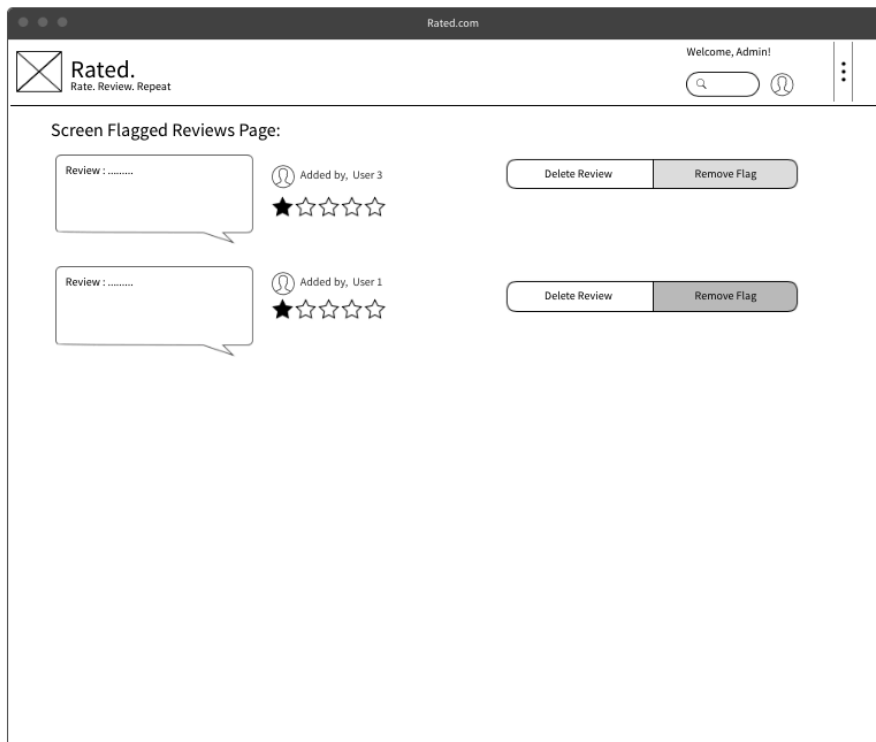

The mockup shows a web browser window with the URL "Rated.com". The header includes the Rated. logo with the tagline "Rate. Review. Repeat." and "Signup" and "Login" buttons. The main content area features a "Register for Rated." section with the text "Rate and Review movies. Up-vote the reviews you like. Signup as a basic user and become a critic by popularity of your reviews and request to add your favorite movies to the database." Below this is a "Have a Google account?" section with a "Login Directly" button. The registration form includes input fields for "Full Name", "Email", "Password", and "Change Password", and a "Register" button. At the bottom, it states "By signing up, I accept the Terms & Privacy Policies".
