**Title:**

An Online Movie Rating System

**Description:**

We are planning to design and develop an online movie rating system, which will be a database of the movies that have been released and are yet to be released, with their ratings and reviews.

**Actors:** Admin, Moderator, Critics, Users

**Functionality:**

Admin:

- Login/Forgot Password
- Add/Remove Movies
- Add/Remove Users [If needed]
- Promote critics to moderators
- Promote users to critics
- Screen reviews

Moderators:

- Login/Forgot Password
- Add/Remove Movies
- Accept the request to add movies from users/critics
- Screen reviews

Critics:

- Login/Forgot Password
- View movie list based on one filter
- Review a movie
- Rate a movie with higher weightage than normal users
- Share the rating of the movie on social media
- Up-vote a review
- Request to add a movie

Users:

- Login/Forgot Password
- View movie list based on one filter
- Review a movie
- Rate a movie
- Share the rating of the movie on social media
- Up-vote a review
- Request to add a movie

**Stretch functionality:**

- Can book movie tickets/rental from a partner website
- Adding multiple filters to view the movie reviews
